Working Together

Walker Farm has been in our family for over 200 years. It has been a challenge for every generation to find a way to continue the agricultural tradition. One hundred years ago, our ancestors raised tobacco, sheep, chickens and dairy cows. During the last 30 years, the farm has evolved into a complex business that includes 19 greenhouses, 30 acres of organic vegetables and fruit, and a busy retail stand and garden center.

Despite the various economic pressures in much of the agricultural world, our farm has been successful and continues to improve every year. Some of the reasons for this include:

- ◆ Quality Products
- ◆ Careful Planning
- ◆ Creative Marketing
- ◆ Hard Work
- ◆ Friendly Customer Relations and, most important of all ---- Great employees!

Our goal is to be the absolute top farmstand in the world with the freshest, best tasting fruits and vegetables and the prettiest, healthiest flowers and plants. Only by working as a team can we put it all together and keep our customers happy with the level of quality they have come to expect.

Employment on a farm may seem romantic and idealistic, but it's a difficult job. Walker Farm workers will be asked to:

- ◆ work quickly with quality in mind.
- ◆ be aware of the cost of their labor in relation to production.
- ◆ be able to accept constructive criticism.
- ◆ be prepared to work in rainy and/or very hot weather.
- ◆ learn to work alone as well as in a group.
- ◆ show up for work well rested and on time.

If you think you can handle these requirements,
we'd like to get you on our farm team.
